

TRANSFORMING THE FUTURE THROUGH HIGH QUALITY, LEARNER-CENTERED TRAINING

ADULT NUMERACY & LITERACY TRAINING

A workforce with low literacy and numeracy levels can create potential barriers within the workplace. Supporting your staff to improve their literacy and numeracy level contributes to increased engagement in the workplace and improved health & wellbeing.

Ama Training Group supports organisations with developing fit for purpose workplace literacy and numeracy training designed to support the specific needs of your workforce and delivered in a kaupapa māori framework.

EMPLOYERS

Organisations that have a workforce with a high level of **literacy and numeracy** means there is an improved communication with customers and colleagues, more efficient handling of tasks, better understanding of the health and safety requirements and better staff retention.

EMPLOYEES

Employees will notice an improvement in their workplace communication skills, confidence in speaking up in the workplace and improved reading and writing skills.
